

# CARE INSTRUCTIONS

- Under the warranty, rust is defined as structural / perforation (a hole) of a metal panel that originates from the inside of the metal panel from the window level down.
- Any claim MUST be lodged within 30 days of the rust appearing with MotorOne, in accordance with the warranty claim procedure.
- The vehicle MUST be inspected annually by the authorised selling dealer or by an authorised MotorOne inspection agent.
- Failure to have your vehicle inspected annually will void the warranty. Please refer to the warranty for terms and conditions.
- Inspections MUST occur within the period beginning 30 days before, and ending 30 days after, the anniversary of your purchase of the treatment.
- Your inspection schedule MUST be presented (contained in the warranty) to the authorised selling dealer or to an authorised MotorOne inspection agent to complete and sign that the inspection has been completed. You must also retain the inspection receipt for the inspection agent for all inspections.
- The vehicle must be kept clean from mud and no part immersed in salt water, and it cannot carry corrosive chemicals.
- In the event of any queries regarding this product or warranty, contact MotorOne in your state.
