- No annual inspections, no re-applications

\*Terms, conditions and exclusions apply.

# RESHINE

How RELOAD Paint Surface Coating works

First, diagnosis of paintwork by trained RELOAD technician, then deep-cleaning using the RELOAD preparation process to remove oxidisation and pollutants.

Paintwork is prepared by removing micro surface marks which helps restore paint gloss. This is the key to RELOAD.

RELOAD restores gloss and shine, creating superior protection against damaging UV and environmental contaminants.

The result is an outstanding and long-lasting shine backed by a nationwide warranty\* for peace of mind.

# RELOAD

RELOAD covers more than just the exterior

- RELOAD Leather Coating
- RELOAD Vinyl Coating
- RELOAD Fabric & Carpet Coating

RELOAD protects against:

#Only applies to vinyl and leather coating
