Amazing services, always very fast responses from customer service team and the technical members are very skilled and professional. Definitely feels great to have a membership which can give you peace of mind when you accidentally cause damage to your vehicle.

Have been a client since 2011, as a fussy car owner I consider Schmick a great professional and affordable service.

What a bunch of legends. I can't remember the last time I came across such awesome customer service and quality professionalism. We had a few false starts - TOTALLY our fault - and the Schmick team was amazingly patient and accommodating. Finally managed to get ourselves sorted and had Schmick out today our damaged wheel looks good as new! Thanks so much, guys. Would recommend to anyone!

Schmick was easy to get in touch with. They came on time and repaired my car within 2 hours. There was no fuss and I didn't have to go anywhere, they came to my home and were very professional and the technician was excellent. Would highly recommend Schmick for those people who love to look after their cars.
