

LOGO COMPLIANCE GUIDE

For great brands, there is nothing more vital than ensuring 100% consistency when presenting the brand in the marketplace. When logos and style variations differ from prescribed designs, it starts to dilute the strength of the brand that AutoXtreme has in the industry.

If you are incorporating the AutoXtreme logo onto marketing material created for AutoXtreme, it must be consistent with this Logo Compliance Guide. If you have any questions, please contact the marketing team at marketingsupport@motoronegroup.com.

marketingsupport@motoronegroup.com

1. LOGO

The AutoXtreme logo is available in two primary formats, navy or white. The navy logo is to be used on very light backgrounds only, and the white to be used over the category colours and dark backgrounds. A black version is also available for when the navy blue is not possible to use.

The AutoXtreme logo is the most important graphic element of the AutoXtreme visual identity. Accordingly, it must be present in all visual communications, and should be reproduced with complete consistency. Here is an example of the master logos. These elements are not to be modified in any way.

1.1. Logo Reserve Area

There is no limit to the maximum size of the logo, however, the AutoXtreme logo must not be produced smaller than indicated on this page. There is also a reserve area that must be applied on all materials when using this logo.

Minimum Reserve Area: 5mm x 5mm

Minimum Size: 29mm x 6.3mm

Should you have any questions regarding the positioning or size requirements of the logo, please contact the marketing team at: marketingsupport@motoronegroup.com

Reserve Area & Minimum Size

2. POSITIONING

Where the logo sits on white space, the navy blue logo is to be used. If the logo is sitting on category/colour background or an image background, the white logo is to be used.

Keep in mind, a minimum of 5mm clear space must sit around the logo to the edge of the marketing material for legibility purposes.

The AutoXtreme logo cannot be reproduced in any other way. For example, the logo cannot be made opaque, stretched, split from the tagline or positioned vertically.

If you have any questions regarding the positioning of the logo, please contact Marketing via email: marketingsupport@motoronegroup.com

CONGRATULATIONS!
Omni Smart Entertainment

Congratulations on the purchase of your new Omni Entertainment Sys
This document is designed to help you set up and use this system with or a safe spot, for easy reference if required.

Take a quick look over the diagrams below to get a better understanding of your new Omni 12" screens for the first time.

Prerequisites:

- You'll need a Google Account that's already set up (small etc)
- Make sure your vehicle's engine is up and running and not in accessory mode
- Have a smartphone that can be used as a Wi-Fi Hotspot

First time setup:

- Use the Power Button on the top left of each screen to turn on your new Omni Entertainment
- You'll need to connect to Wi-Fi networks to each screen once it's powered up. Take a look at **Diagram B**
- When prompted, do not scan the QR code, scroll down and pick the option 'Set up on TV'

Diagram A
Power Button

Diagram B
Pairing Methods

- After selecting 'Set up on TV' instead, you will be requested to connect your mobile Hotspot
- Next, Sign in with your Google Account
- Accept Terms & Conditions and allow any app permissions if prompted
- Finally, select the streaming services you want to add (you can always add additional via the app)
- It may be necessary to restart the TV to set up. On Screen help, perform the same instruction
- If prompted to 'Control volume and power with your Google TV remote' select 'Not Now'

Please refer to your User Manual for more in depth information.
